THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail

Determination of Patent Term Extension or Adjustment under 35 U.S.C. 154 (b)

A reissue patent is for "the unexpired part of the term of the original patent." See 35 U.S.C. 251. Accordingly, the above-identified reissue application is not eligible for Patent Term Extension or Adjustment under 35 U.S.C. 154(b).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Reissue Applications

1. A supplemental reissue oath/declaration was filed 03/17/2011, and has been considered by the Examiner.

Allowable Subject Matter

2. The present application has been thoroughly reviewed. Upon searching a variety of databases, the examiner respectfully submits that claims 27, 29-52, 63, 65-88 and 92-95 are allowable in light of the search.

The prior art of record does not teach nor suggest methods and computer readable storage mediums of parallelizing an operation and processing statements in a database system, as claimed. More specifically, the prior art of record fails to teach, in combination with other claimed features: “wherein the step of assigning work partitions is performed by assigning the work partitions in a sequence based at least in part on sizes associated with the work partitions, with relatively larger work partitions assigned before relatively smaller work partitions; said plurality of entities operating in parallel on work partitions assigned to said plurality of entities to perform said operation; wherein assigning the work partitions in a sequence includes assigning a first previously unassigned work partition to a particular entity of the plurality of entities, and when the particular entity completes processing the first work partition, picking a second previously unassigned work partition based at least in part to the size of the second work partition, and assigning the second unassigned work partition to the particular entity for processing,”... and “after said at least one entity has completed operation on said first work partition, assigning said at least one entity a second work partition from said set of work partitions, wherein the step of assigning said at least one entity a second work partition includes

determining whether there are any unassigned work partitions from a first level in a hierarchy to which said first work partition belonged; and if there are no unassigned work partitions from the first level in the hierarchy, then selecting said second work partition from a level in said hierarchy that is two levels above said first level in said hierarchy; said plurality of entities operating in parallel on work partitions assigned to said plurality of entities to perform said operation; and wherein the operation is specified in a query_ that corresponds to the hierarchy of operations," ... and "the method includes the step of generating a serial execution plan for operations in a database management system (DBMS) running on a computer system; the method includes the step of generating a parallelized execution plan for said serial execution plan, said parallelized execution plan including first and second operations; the step of dividing an operation is performed by dividing said second operation; the plurality of entities includes one or more slave processes operating on a plurality of data partitions, the quantity of said data partitions being greater than the quantity of said slave processes; executing said parallelized execution plan when a plurality of parallel resources of said computer system are available; and executing said serial execution plan when said plurality of resources are not available," ... and "said plurality of entities operating in parallel on work partitions assigned to said plurality of entities to perform said operation; generating an execution plan for said operation; examining said execution plan from bottom up; identifying a parallelized portion of said execution plan, said parallelized portion can be processed in parallel, said parallelized portion including first and second operations, said first and second operations being executable in parallel; wherein the step of dividing the operation is performed by dividing said second operation; wherein the plurality of entities includes one or more slave processes operating on a plurality of data partitions, the

quantity of said data partitions being greater than the quantity of said slave processes; identifying some serial portion of said execution plan, said serial portion can be processed in serial: and allocating a central scheduler between said parallelized portion and said serial portion,” ... and “generating an execution plan to execute database management system (DBMS) operations in parallel, said execution plan including first and second operations; wherein the step of dividing said operation is performed by dividing said second operation; initiating an operation coordinator in a computer system to coordinate execution of said execution plan; initiating, by said operation coordinator, a first set of slaves operating on a plurality of data partitions to produce data, the quantity of said data partitions being greater than the quantity of said first set of slave processes; initiating, as said plurality of entities, by said operation coordinator, a second set of slaves to consume data; and directing said second set of slaves to produce data and said first set of slaves to consume data when said first set of slaves finishes producing data,” ... and “dividing, at said database server, the database operation into a set of work partitions: performing, at said database server, a determination of how many entities to use to perform said operation based, at least in part, on the user-specified degree of parallelism, wherein the amount of entities that are chosen to use to perform on the database operation is different than the amount of entities that would have been chosen if no user-specified degree of parallelism had been specified;” ... and “incorporating hints into at least some of said query fragments at said database server, wherein said query fragments incorporating hints comprise work partitions that may be performed in a plurality of ways to reach a same result, and wherein said hint associated with a given query fragment indicates one way of said plurality of ways to perform said work partition; assigning, at said database server, query fragments from said set of query fragments to

a plurality of entities; and said plurality of entities operating in parallel on query fragments assigned to said plurality of entities to perform said database operation, wherein entities working on a query fragment associated with a hint perform the work partition associated with said query fragment in said one way dictated by said hint,” ... and “determining a hierarchy of operations associated with a query; dividing a first operation required by said query into a first set of work partitions; dividing a second operation required by said query into a second set of work partitions, wherein said second operation immediately follows said first operation in said hierarchy; dividing a third operation required by said query into a third set of work partitions, wherein said third operation immediately follows said second operation in said hierarchy; assigning work partitions from said first set of work partitions to a first plurality of entities; said first plurality of entities operating in parallel on work partitions assigned to said first plurality of entities from said first set of work partitions to perform said first operation; assigning work partitions from said second set of work partitions to a second plurality of entities, wherein said second plurality of entities are different entities than said first plurality of entities; and said second plurality of entities operating in parallel on work partitions assigned to said second plurality of entities from said second set of work partitions to perform said second operation; assigning work partitions from said third set of work partitions to said first plurality of entities; and said first plurality of entities operating in parallel on work partitions assigned to said first plurality of entities from said third set of work partitions to perform said third operation.”

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DENNIS TRUONG whose telephone number is (571)270-3157. The examiner can normally be reached on MON - FRI: 7:30 - 5:00 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mahmoudi Tony can be reached on (571) 272-4078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
